

BRINSMEAD ROST

Artist Collaboration 2017

Event Brief

To initiate my own artist residency, in various places around the world, is a way to facilitate travel and make art in new places and circumstances, which is essential for me to nourish and widen the creative process. In 2017 I went to live and work with an artist colleague in Denmark, Western Australia, for an extended stay of up to six months. While there, along with other interests such as surfing, hiking, yoga, we spent most days in the studio creating large scale paintings together. We would work at the same time, on the same painting, constantly exchanging ideas, inspiration and sharing our different approaches to making art. I can honestly say it was one of the most rewarding and enjoyable experiences of my professional arts practise and probably my life.
